Let's get up and
join the dance Kalinke.
Despite those who are
opposed to our being close.
Both on your side and my side.
Both on your side and my side.

Hey young lad, young and wild.
How to dance near you when
my mother is watching from over there.
How to dance near you when
my mother is watching from over there.

Let your mother watch if she wants.
Mother to you, perhaps my future
mother-in-law.
So let's get up and dance near each
other, despite the circumstances.
So let's get up and dance near each
other, despite the circumstances.

Hey young lad, young and wild.
How to dance near you when my father
is also watching from over there.
How to dance near you when my father
is also watching from over there.

Let your father watch if he wants.
Father to you, perhaps my future
father-in-law.
So let's get up and dance near each
other, despite the circumstances.
